Welcome to VetSurg

Our mission is to provide safe, effective, and thoughtful veterinary surgical service to our community. Our Team is compassionate, ethical and focused. We are a highly-experienced and dedicated Team of veterinary surgeons, surgical assistants, anesthetists, patient-care technicians and administrative assistants. Our Team provides advanced surgical care to your dog and cat family member. We are focused on providing you with the information you need to better understand your pet's medical and surgical issues and allow you to make an informed and balanced decision on the best way forward for your family member.

We work together as a Team to provide for our patient's comfort, and achieve the best surgical outcome that is possible. We embrace your relationship with your canine and feline companion and support them through their medical journey with respect and compassion.

Our Services Include

- **Surgical Consultation**
- **Lameness Evaluation**
orthopedic and nerve-based
- **Diagnostic**
radiology, ultrasound, computer tomography, arthroscopy
- **Soft Tissue & Oncologic Surgery**
laparoscopy; thoracoscopy; ear, nose & throat; abdominal & thoracic procedures; tumor removal
- **Orthopedic Surgery**
arthroscopic-assisted joint reconstruction, fracture repair, joint resurfacing

VetSurg provides in-person 24 hour nursing care with daily progress updates for all surgical patients.

VetSurg strongly believes the best results are achieved when you, your primary veterinarian, and your veterinary specialist work together as a Team. We maintain close and detailed communication between all Team members to maintain everyone's understanding of the diagnostic and treatment process.

We work closely with you and your primary veterinarian to form a healthcare Team that works together for your pet's health needs.

Fee Ranges

Consultations: Standard: **\$155-\$217***

If sedation is required to safely perform the examination \$197-\$259

Extended Consultations: **\$289**

Sedated Radiographic Series: **\$550-\$900**

Cost varies depending on the number of views required and necessary sedation.

Computer Tomography (CT) Imaging: **\$1,800-\$2,400**

Soft Tissue/Oncologic Surgery: **\$3,400-\$6,800***

Orthopedic Surgery: **\$4,400-\$8,400***

All-Inclusive Weight-Based Pricing:

All-Inclusive patient weight-based pricing includes initial consultation, surgical procedure, hospitalization and follow-up visits with imaging as needed. Complexity of procedure and use of specialized bone plates and other implants will alter the all-inclusive price ranges.

Arthroscopic TPLO Surgery: **\$6,800-\$7,800***

Patella Stabilization Surgery: **\$5,400-\$7,000**

Fracture Repair Surgery: **\$5,600-\$8,400**

Laparoscopic Gastropexy: **\$3,500-\$4,000**

Laparoscopic Gastropexy with Ovariectomy or Neuter: **\$3,900-\$4,700**

*Estimates of surgical procedures vary with patient size, associated diagnostic imaging, procedure timing, implant selection, complexity and duration of procedure. Following your pet's surgical consultation and discussion of treatment options, we'll provide you with a detailed Patient Visit Report and surgical plan estimate.

*Fees are subject to change. Fee credit towards surgical procedures may be available in some situations.

We offer CareCredit financing and payment via all major credit cards including AmEx. We also work directly with Trupanion and can process all claims and pre-approvals through Trupanion Express. We're happy to provide information for all insurance claims, but do not bill other insurance companies directly.
